

THOUGHT PATTERNS FOR HIGH PERFORMANCE®

Join us for *Thought Patterns for High Performance*®. This two-day Leadership Development Workshop provides you with an experiential understanding of how mindset impacts your performance personally and as a leader.

In today's world of accelerating change and increasing demands, our ability to handle strategic challenges – with sufficient speed, agility and creativity – is paramount to organizational success. The world is changing at a rate in which basic systems, structures, and cultures built over the past century cannot keep up with current demands. If we don't change the way we think, we are stuck in yesterday's performance.

The question now becomes, what are those barriers that are keeping us and our organizations from success? It turns out that a lot of our success has to do with the way that we think – our mindset. As a leader, the key is to think differently – to develop a growth mindset within ourselves and within those we lead.

Building on five decades of high-performance programs, The Pacific Institute's scientifically-driven and internationally-proven curriculum will provide you with the tools to develop an effective leadership mindset to take your organization to new levels of achievement. This can't-miss leadership development workshop focuses on the following:

- Address individual and organizational habits of thought which impact individual, team and organizational performance.
- Learn how organizational health impacts organizational achievement.
- Uncover areas where ineffective thinking may be creating inefficiencies, causing employees to disengage, and limiting you and your organization from reaching its full potential.
- Understand the psychology behind the habits, attitudes, beliefs, and expectations that shape adaptive, engaged and high-performance cultures.

Event Keynote Speaker: Will Shields, proud Nebraska Cornhusker and Pro Football Hall of Famer with the Kansas City Chiefs.

"It is a great program. You have to experience it firsthand and it's worth your time. It's what you need to do, not only to lead others and your organization but to help you be a better person in all aspects of your life, period. Start with you."

AGENDA

Day One:

- Welcome, Introductions and Overview
- Keynote Speaker – Will Shields
 - Stages of Life: Mindsetting for High Performance Throughout and Within All Aspects of Our Lives
- Q&A with Will Shields
- *Thought Patterns for High Performance*[®]
